## DR. KOCH'S DISCOVERY.

Report Made by a Vienna Surgeon—The Effect of the Lymph Was Miraculous.

The first Vienna doctor who went to Berlin to study Koch's cure, has already returned, and his report of his experiences is very interesting. He is Dr. Carl Hochsinger, of Rudolph hospital, and his earnest advice to patients is at present to refrain from going to Berlin.

The influx of doctors and patients is so very great that it will not be possible for Koch to hold back the composition of a remedy which is being applied for to such a degree that it would be cruel not to place other cities in a position to make the lymph for themselves. Dr. Hochsinger was five days in Berlin, and has had every opportunity of watching the main details of Koch's remedy upon tuberculous diseases. He saw injections made by Drs. Cornet, Krause and Levy upon consumptive adult patients, and cases of diseased larynx and scrofulous or tuberculous children whose glands or bones were infected.

He says that Koch's lymph bottle contained some magic fluid, the immediate effect of which, watched by a physician's eye, is indeed miraculous. A miligram, a thousandth part of a cubic centimeter, was injected under the skin of a child which had scrofulous glands on the neck, each as large as a man's fist.

Six hours after the injection had been made the glands began to swell; the skin over them reddened and became hot and painful. Still the glands did not burst nor were any signs of abscess evident. Six hours later he saw long hard abscesses and the glands were hard and gave no pain. They were so firm and smaller than before the treatment.

The impression produced upon a medical man is overpowering that a remedy should have been found which destroys the tubercle without hurting any other part of the body and that through the blood it should be able to approach the infected tissue—a triumph of science.

Professor Hochsinger saw a patient who, after the first injection, lost consciousness for thirty-six hours, was feverish during the whole of that time and after the second injection was unconscious eighteen hours. Several other patients had high fever, and showed signs of irresistible sleepiness. Light attacks of pleurisy also resulted from the injection. Professor Hochsinger thinks that no out-patient should be treated with the remedy, as it is not possible to foresee the results.

The young Archduchess Antonette, aged 16, will be subject to the treatment soon. She is consumptive.

## Riotous Spanish Students.

MADRID, Nov. 17.—The day being the anniversary of the riot of 1844, the students refused to enter the University, marched to the offices of the Minister of Justice and made a hostile demonstration. They then marched through the streets, singing and shouting. The police drew their swords and attempted to check the mob, but were speedily disarmed. The students afterward gradually dispersed.

A great sensation has recently been caused in Stockholm by a clergyman who made a confession from his pulpit of a number of gross immoralities with the ladies of his congregation. He gave their names, and also the names of all female members of his flock, both married and single, whose presence had been a source of temptation to him. He promised next Sunday to make further revelations and give more names. People who get seats in that evangelist next Sunday, says the Christian Tribune, will have to be there early.

The information given to the Agricultural Department by the geologist in charge of artesian water investigation is most encouraging. It appears probable that artesian irrigation will become a most important factor in agricultural development. It is especially valuable for its applicability to individual and neighborhood needs. A farming region watered by artesian wells will never become subject to a water monopoly. It is the ideal system for the agricultural pioneer and the 10-acre farmer.

There is a slight vein of humor in the late Indian scare. Captain John, of the Shoshones, told the Belmont people that his tribe was simply massed for the purpose of protecting the whites from the Pinches in the meantime Chief Nach-z states to the Journalist that he did not need any help in case of a Shoshone outbreak, the Pinches would stand in.

It is said that C. O. Fowning is to be provided with a foreign mission—probably to one of the South American States—Candalaria Ch or de Belt.

The Journal has not heard of it. Mr. Fowning would not go to any of the South American States even to be President of all of them.

The War Department will ask for \$740,000 for batteries for San Francisco Harbor during the coming year. That expenditure would make some show, but at that rate it would take over 30 years to carry out the proposed scheme of defense.

Mary Davis, of Rutland, Vt., who has not spoken a word for ten years and whose case had been given up as hopeless, had her power of speech spontaneously returned a few days ago.

The South Dakota Legislature turns out to be of the Democratic Independent-Fusionist kind, and Moody will not be returned to the United States Senate.

## INDIAN CRISIS CLOSE AT HAND.

Settlers in North Dakota Wildly Excited—General Miles Thinks There May Be Some Fighting.

Chicago, Nov. 18.—On receipt of a dispatch to night announcing the movement of troops in the Department of the Platte toward the Pine Ridge Agency, an Associated Press reporter called on General Miles. He said: "The newspapers really ought not to publish this sort of thing, for it will all be in the Indian camps in less than two or three hours. There is nothing in it except that troops are being sent to the vicinity of the reservation to prevent, if possible, any outbreak and to encourage the loyal element among the Indians; also to protect the agencies, which report the Indians turbulent and out of control. It was hoped that this excitement might pass without serious trouble, and up to this time no Indians have left their reservations."

"The causes of this threatened trouble are failure of the Indians' crops, the delay of Congress in making appropriations for their support and consequent delay in getting supplies to them, resulting in their being brought to the verge of starvation and worked into a frenzy. They are getting rations daily, possibly the difficulty may be bridged over. The movement of troops is simply precautionary, but at the same time they may have serious work."

The reporter asked if it would not be unusual for the Indians to go on the warpath at the beginning of winter. General Miles replied: "Not at all. Those Northern Indians are tougher than leather."

## INTENSE EXCITEMENT IN NORTH DAKOTA.

MINNEAPOLIS, Nov. 18.—The Tribune's London, N. D., special says: Every house in town is full to overflowing with refugees from the country districts. The most intense excitement prevails in the country. One man there was prepared to believe anything about the Indians. In town somewhat less tension prevails, owing to the receipt of 300 quarts today from the State Government and the fact that a company of soldiers will be here tomorrow morning from Fort Totten. To-night there are 200 armed Indians in town, but the citizens are armed, too, and patrols will be out and the people will sleep with their rifles on hand.

A date will be fixed by a committee of citizens, and the Indian agent will be notified that after that date any Indian found in this country without a pass from the agent will be killed on sight. The population is excited, and although the conservative men are doing their best to quiet the angry ones there is every reason to believe that unless the Government takes immediate steps to increase the force of soldiers here and at Fort Lincoln, every Indian coming into the country will be killed.

A Chascon, Neb., agent to the Tribune says: It is reported here that the Indians at Pine Ridge Agency are entirely beyond the control of the agent and have already begun depredations in the way of attacking cattle and other property. Three hundred soldiers from Fort Robinson passed through here today.

A dispatch from Bismarck, N. D., says a report comes from Montana that the Indians at Standing Rock had left the agency and were advancing on Fort Lincoln. The State Government was called on for aid. It was learned since that the alarm was unnecessary. Everything is quiet at Fort Yates and no trouble is expected there.

## THAT INDIAN SCARE

It All Happened Through the Shoshones. Wish to Protect the Whites from the Pinches.

News was received in Belmont on Tuesday evening last, says the Courier, that a band of Pine Ridge Indians were on the warpath in Reese River Valley and that 300 Shoshones had placed their tent in Riverfront canyon, near Belmont. A number of citizens immediately armed themselves and patrolled the town all night. Several married men believed it advisable to move their wives and children to a safe place and accordingly they took them to the Court House; the husbands performed duty during the night as guards. On the following day it was ascertained that the Indians in Riverfront canyon had no intention of attacking the whites, but, on the contrary, Captain John, commonly known by the sobriquet of "Whisky Johnny," informed several citizens that should the Pinches attempt to interfere with the whites, the Shoshones would join the citizens in downing the Pinches. Fandango Captain John says that Chief Kawich has ordered that all the Shoshones must gather in Smoky Valley and attend the fandangoes that will be held in that valley during the Fall, Winter and Spring. In answer to inquiries, Capt. John said that the fandangoes would be held "to keep snow from coming down." Meanwhile Sheriff W. Brougher has made a requisition on Governor Bell for 50 new rifles and ammunition. Governor Bell has already sent two cases of rifles and 1,000 rounds of ammunition to Nye county.

The Elko Independent claims that the election of D. B. Williams, State Senator from Elko county, is irregular and that he is ineligible to the office, as he is Postmaster at Tascadero with a salary of more than \$500 per annum.

The Independent cites Section 9, Article IV, of the State Constitution, which reads as follows:

"No person holding any lucrative office under the Government of the United States or any other power shall be eligible to any civil office of profit under this State; provided, that Postmasters whose compensation does not exceed \$500 per annum, or Commissioners of Deeds shall not be deemed as holding a lucrative office."

The friends of Mr. Williams say that he has resigned the Postmastership and that while he is still acting as Postmaster, he is the only pending the appointment of a successor, which will take place before the time arrives for the qualifying for the duties of his new office.

## BRIVITIES.

Jack Foulks was in town yesterday. There is plenty of water in the Truckee. For window glass, all sizes, go to Lang & Schmitt.

Geo. Watt, of Lander county, was in town yesterday.

Pick out the best men for the Constitutional Convention.

You must now light the gas to see the incandescent electric light.

Senator Foley will return to-morrow from a trip to Salt Lake and Elko.

Berry & Novacovich have purchased four car loads of Honey Lake apples.

John McGrath, one of the proprietors of the Lassen Advocate, is visiting Reno.

A person indebted to the JOURNAL is requested to pay up and look pleasant.

Lonkey's new and elegant residence at Verdi will soon be ready for occupancy.

The Reno Water, Land and Light Co. is still expending considerable money in new work.

Rising, Cheney, Talbot and Fitzgerald will be our District Judges for the next four years.

C. P. Huntington and party passed through Reno yesterday morning, eastward bound.

T. B. Riekey intends feeding 1,800 head of beef cattle in Antelope valley this winter.

B. F. Alick, the first Mayor of Virginia has been re-elected Superior Judge in Kern county, California.

A la Rev. Sam Jones exclaims: "I owe my mouth 'N' Yes, and we sometimes think he bought it of a jackass."

Hon. Pat Reddy passed through Reno Wednesday evening from Inyo county, on his way to San Francisco.

The JOURNAL will have been published for twenty years ending to-morrow. No. 1 was issued Nov. 23, 1870.

Some of our prominent citizens urge that taxes be paid semi-annually, instead of such a big dose in a lump.

A San Francisco jury has decided that the California Athletic Club can have glove fights without police interference.

Go to Lang & Schmitt for heating stoves, cook stoves, ranges and house furnishing goods. Largest variety and best values.

Nye county polled 200 votes. Washoe polled nearly 1,700. Nye has three members of the Legislature, and Washoe only five.

Have you secured your Thanksgiving turkey and cranberries? Remember that Berry & Novacovich are fully supplied with both.

Frederic Jones, of the State University, has received a letter from Lieut. J. M. Neill, stating that he will report for duty at that institution to-day.

Two car loads of turkeys, chickens and geese from Iowa, went this morn'g to California yesterday morning. A further shipment of approaching Thanksgiving.

The farmers of Nye county are now convinced that the only thing that will help that section of the State is a railroad. More mines worked, more markets.

G. W. Dale, one of the oldest colored Republicans in Ormsby county, is out this year with an announcement that he is a candidate for Porter of the Assembly.

The first anniversary ball given by the Young Men's Institute took place last evening at Armory Hall. It was an enjoyable affair and was well attended.

Mr. Geo. W. Hilton, the distinguished temperance lecturer, returned Wednesday from Mason valley where he has been lecturing, and yesterday departed for California.

A new pipe organ is soon to be placed in St. Peter's Episcopal Church, Carson. It will be the second one in Nevada, there being a very good one in the Methodist Church at Austin.

Judge Benj. Currier, Grand Chancellor of the Knights of Pythias, who has been making an official visit to the lodges in the eastern part of the State, returned to Reno Wednesday night.

The Leno Marble Works, at Essex, is running night and day on work for the D. O. Mills building at the Bay. A small electric plant will be put in soon so as to help out the night shift.

The steam wagons are still running successfully between Sardine Valley and Verdi. The other day one of them brought in nine wagons, carrying between 31,000 and 32,000 feet of lumber.

The new ice house of the Essex Ice Co. is about completed. The water is in the pond, and the boys waiting for the freeze. If everything goes all right there will be a grand skating carnival and dance up there this winter.

Geo. Olett, who fell from the ice house at Essex Wednesday was precipitated thirty feet and lay unconscious two hours and a half. He did not sustain any injuries, however, worse than a general shaking up.

Our brother of the Latona Times has waved posthumously and gnashed forth the following: "With silent footsteps the beautiful snow etc etc silently down from heaven yesterday and the dark-eyed soil reached up and yanked it in."

## FATAL MINING ACCIDENT.

William O'Donnel, fatally injured in the Alta Mine.

About 3 o'clock Tuesday afternoon, says the Virginia Chronicle, William O'Donnel, working in the Alta mine, Lower Gold Hill, met with an accident by which he was so seriously injured that he died at 4 o'clock Wednesday morning.

He has been acting as station tender at the 25 station of the shaft, for the last ten days, in place of the regular tender, who is a k. H. had run a loaded car upon the upper deck of the cage (a double-decker) and rang it up high enough to run an empty car upon the lower deck. No one was with him, but he had evidently forgotten to secure the car by hooking it, for when he rang up the cage this car rolled out far enough to catch against the wall plate or cap timber of the station, bringing the cage to a dead standstill. The guides were broken and the cage swung back, releasing the car, which fell down upon O'Donnel's head and shoulders.

The engineer at the surface immediately tested trouble and stopped the hoisting. He soon found that he could neither hoist nor lower the cage owing to the broken guides, therefore, a party was sent down another compartment of the shaft to the point of disaster. They found O'Donnel lying upon the floor of the station, with the heavy iron bar lying partly upon him. He was taken to the surface as soon as possible and medical assistance summoned. A large portion of the scalp was found to be torn from the back of the head and there were severe bruises and contusions, but no bones were broken.

The unfortunate man was carefully conveyed to his home on the Virginia side of the divide, where he received all possible care, but although his skull was not fractured, he had received a fatal concussion of the brain, from which he died at 4 o'clock Wednesday morning.

## He Got Out of Town.

Truckee Republican: Last Saturday night James Meagher got drunk and went to chasing squaws. He followed two into the cabin of Chris Steel, and because the latter would not turn them out, Meagher assaulted him in a violent manner, and attempted to strike him with a hatchet. A violent struggle ensued, and Chris was thrown on the floor. The squaws gave them, and John McInnis and E. J. Wyoff appeared on the scene just as Chris was getting the worst of the tussle. They clubbed him over the head, took him out and turned him over to Constable Mornill. As it happened Chris was not seriously injured. Meagher really appearing to be the worst hurt. A charge of battery was placed against Meagher, and he pleaded guilty. He was fined \$25, and was given a suspension to leave town. He paid his fine, and out no time in getting out of Truckee. Meagher is a notorious squaw man, and he community can well afford to lose him.

## The Indian Messiah.

Carson Appeal: The bogus Indian Christ is still exciting the savages all over the country, and the Chicago papers have it that old Johnson Sides is the man.

Sides, on the contrary, is about the most sensible Indian in the country, and is dead against the Indian craze. He says that for some years a gubbling old Walker Lake Indian has been figuring the air by up with a lot of stuff and nonsense, trying to get in the prophet business, but with poor success.

As a Wiggan he was never any good. He predicted that a flood would wipe out the Sierra Nevada mountains in 1870, that beef would be 12 cents on the hoof and silver strike 280. These are but few samples of his wild work. He now predicts the coming of an Indian Christ and a Virgin Mary of the Indian persuasion. The Indians are getting as crazy as bed bugs.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children's Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, eases wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children's Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb 21-awf-y

## A New Chief.

Pinto society circles are in a flutter, says the Walker Lake Bulletin. A son and heir was born to the house of Captain Swat-A-Cake last Sunday night. The young chief has blue eyes and a suspiciously light complexion. Sweet-A-Cake has been riding swill barrels for the past few days, and has accumulated many choice tid bits, which will be dispensed with a lavish hand to-morrow night. We have received an invitation to attend the banquet, but owing to a previous engagement we must decline.

## Left for Idaho.

Captain John Smith's team, driven by James Sackett, left yesterday for Southern Idaho, with a load of old-time Humboldt miners who are going to that country to look for employment, says the Silver State. It looks bad to see old-timers going away from here to look for work, and if silver keeps up its down-hill pull, as it has been doing the last few months, all the miners in the country will have to move away from here as the mines will be closed.

## Literary Note.

The Christmas edition of the Cosmopolitan Magazine is one hundred thousand copies. The order, as originally given to the printers, was for 85,000 copies, but while on the press it was thought advisable to increase the number to 100,000.

It contains a feature never before attempted by any magazine, consisting of 125 cartoons from the brush of Dan Beard, the now famous artist, who did such wonderful illustrations in Mark Twain's book, "The Yankee at the Court of King Arthur." These cartoons are placed at the bottom of each page of the magazine, and take for their subject, "Christmas during the Eighteen Centuries of the Christian Era," with variations, showing the way in which we modern Christians carry out some of the chief texts of the Christian gospel.

Above, and at each side of the page is a quaint border, the whole effect being novel and extremely pleasing, and with the unusually varied table of contents, will make such a Christmas number as is worthy to go into more than 100,000 households.

The frontispiece of the Cosmopolitan have of late become noted for their beauty, some of them having as much as four printings. That for Christmas, while in but two printings, is not behind anything that has preceded it in a literary merit.

An excellently illustrated article is one on tea pots, by Eliza Rutanah Seidmore, Literary Boston is treated with numerous portraits, and an article which comes with the nineteenth birthday of Von Moltke, sketches the life of the great Field Marshal in an interesting way, and is by Gen. James Grant Wilson. Elizabeth Bland has one of her charming articles.

The Christmas issue contains 228 illustrations, nearly double the number that have ever appeared in any illustrated magazine.

## Five Years for Manslaughter and Nine for Assault.

Silver State: Sheriff Fellows took the two Chinamen, Ah Jaw and Lee Goon, who were given five and nine years respectively, to the State Prison at Carson yesterday. The first named Chinaman was indicted for murder and allowed to plead guilty to manslaughter. Lee Goon was convicted of assault with intent to kill, and he expressed the wish that he had killed his man, so that he could have got off with a four years light sentence.

## Lundy Items.

Index. Louis Amiet, while prowling about Tigra the other day, found a lone-some jack, four blankets, two new axes, a lot of grub and camp utensils, all of which he appropriated as a matter of course.

Index: On the west side of the creek, not 100 yards from the May Lundy mill many cords of wood might be obtained. But some men would rather freeze to death than gather fuel to matter how handy it may be.

## Gen. Booton is at Virginia City.

J. A. Blossom, of Battle Mountain, is in town.

C. B. Zabriske has qualified as Postmaster at Camden, Va.

Jas. Yarrington came down from Carson last night en route to Salt Lake.

Barnes Plank, of the Nevada Bank Agency, Virginia, was a passenger for the Bay last night.

The Clarendon Hotel is a popular place of resort, and A. J. Clark, the host, very attentive to all patrons.

The Northern Indians are aroused by the Messiah superstition and desire to go upon the warpath. If the Sioux and Blackfoot think there is anything in this they can try it. They will not find any Messiah, but they will get a short trip to the happy hunting grounds.

At Ogden, last Friday, Henry Harsh stepped on the link coupling two freight cars, and just then the two bumpers came together, crushing and maiming his foot; he fell forward on the track, his neck on the rail, and a wheel cut his head off.

Alta: Iowa is boasting a pumpkin weighing 102 pounds. Such a runt would not be taken out of the field in California. Watermelons are commonly that size out here, and squashes and pumpkins run from 300 to 600 pounds.

King Humbert, of Italy, after smoking excessively for many years, quit it at once under advice of his physician and his wife. Power has carried him through. Pretty good stuff in Humbert, considering the chance a King has.

## Be Sure

If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other. Hood's Sarsaparilla is a peculiar medicine, possessing, by virtue of its peculiar combination, proportion, and preparation, curative power superior to any other article. A Boston lady who knew what she wanted, and whose example is worthy imitation, tells her experience below:

## To Get

"In one store where I went to buy Hood's Sarsaparilla the clerk tried to induce me to buy their own instead of Hood's; he told me their's would last longer, that I might take it on ten days' trial; that if I did not like it I need not pay anything, etc. But he could not prevail on me to change. I told him I knew what Hood's Sarsaparilla was. I had taken it, was satisfied with it, and did not want any other."

## Hood's

When I began taking Hood's Sarsaparilla I was feeling real miserable, suffering a great deal with dyspepsia, and so weak that at times I could hardly stand. I looked, and had for some time, like a person in consumption. Hood's Sarsaparilla did me so much good that I wonder at myself sometimes, and my friends frequently speak of it." Mrs. ELA A. GORE, of Terrace Street, Boston.

## 250 Beautiful Lots For Sale!

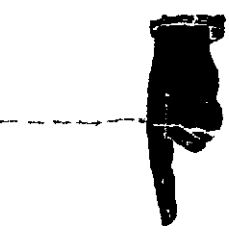

A RARE CHANCE FOR AN INVESTMENT AND A HOME

## THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

## RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

## RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory are about to be established.

Reno has the Bank of Nevada with \$200,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

## INSURANCE.

## THE

## MANHATTAN

Insurance Company.

Assets, \$12,000,000.

The history of the past has proven beyond a question that an endowment policy in a life insurance company is a much.

## BETTER INVESTMENT

Than a savings bank; FIRST, because it is very much safer—as the law of the State of New York requires every life insurance company to keep a

Reserve in First-Class Securities

Equal to its liabilities dollar for dollar; SECOND, in case of death while making these small deposits, the life insurance company will pay, just when most needed by the family, the

## Full Amount

Of the sum insured, amounting to 10, 20, or even 30 times as much as has been deposited; or on the

## Return Premium

Plan of the MANHATTAN, they would do even more than this, for they would at death pay the face of the policy and in addition all the deposits (premiums) paid, while the savings bank would only return the amounts actually deposited with interest. Who would not purchase a valuable piece of property—a farm for example—worth \$10,000, if he could have twenty years to pay for it, in small sums of \$300 per annum with interest on deferred payments and without any tax on it? The \$300 per year being only 3 per cent of the \$10,000—a sum not much greater than that paid annually for taxes on property in hand, of the same cost, and especially if he could have the further conditions specially stated in the contract, 1st, that if he dies while making these payments—even after one only has been made—

No Further Payments Shall be Required

And the full title in fee simple to the entire farm shall at once be given to his family, and 2d, that if at any time after the three years during the twenty years he shall be unable to continue the payments and from sickness or any misfortune, that then he could discontinue any further payments and have in fee simple such portions of the farm as he has paid for; thus, if one-fourth of payments had been made he would own one separate fourth of the farm, etc., and at the same time the farm be entirely free from all claims of creditors, under all circumstances not even to be reached by writ of execution or attachment issued by any court, while if living to the end of the twenty years and the annual payments have been made, the

## Entire Property in Fee Simple

Is secured.

Now the MANHATTAN LIFE INSURANCE COMPANY offers all this and more, for instead of offering LAND on these terms, which is often eaten up by legal expenses and fees in case of the death of the purchaser, or swallowed up by a mortgage given to secure deferred payments, thus leaving the whole amount paid in and leaving the family destitute, or dependent, it offers a

## Specific Bond Secured by Millions

of First-Class Securities.

Agreeing to pay MONEY on the same terms and conditions as above—the cost per year varying at different ages, but otherwise substantially the same terms as above stated, while the sum to be paid at the end of twenty years will be increased by dividends and compounded interest for the full term, thus making the investment a very PROFITABLE and ADVANTAGEOUS one.

Inquiries concerning the bonds of this company will receive prompt reply if addressed to
